

Polite Reminder

Parents are reminded that the school gates and drives must remain clear throughout the day in case emergency vehicles require access. We are also increasingly concerned about pedestrians, cars and bicycles coming into contact, with injurious results, especially near Gate 1 by School House.

If you are using a cargo bicycle or kart, for ease of access to the school site, please use Gate 2. There is also a wide gate off Newton Road designed to accommodate cycles. Both gates are accessible using the gate code details of which are available on the [VLE](#).

At the beginning and end of the school day, Pre Prep parents are welcome to park cargo cycles and trolleys in Southfield playground while dropping off and collecting children. Please ensure the playground is clear by 16:30 when vehicles will be permitted entry for Late Stay pick up.
