Year 8 Art Enrichment Workshop

The Year 8 Art Enrichment Group have been busy preparing Art Scholarship portfolios for their future schools this term. In lessons, the pupils have explored dry-point printing and have created some mixed-media portraits of famous literary figures throughout history. In their after-school sessions, the pupils have painted realistic cherries using acrylics, and they captured atmospheric landscapes using oils. On Tuesday, the pupils worked alongside artist Adam Bridgland and learnt more about screen-printing and typography. They spent the day creating individual monoprints and then worked collaboratively to create a giant mural for the English Department.
