

## **‘Maths in Motion’ Success**

Congratulations to Maxim Kolesnikov for being crowned the St Faith’s ‘Maths in Motion’ Champion. In doing so he qualified for one of the National 1<sup>st</sup> Round Knock-Out Heats where he was competing against other pupils around the country from Year 7 to Year 12. Maxim finished 11<sup>th</sup> out of 12 (with the top 7 qualifying from his heat for the National Semi-Final).

‘Maths in Motion’ is an afterschool activity that takes place in the Lent Term for pupils in Years 5 to 8. It gives pupils an opportunity to use a mixture of their basic maths skills, as well as logical decision making, to set up their own virtual racing car.

Well done, Maxim!
