

New-Word Board Games Event

Last term in Humanities, Year 6 pupils studied the adventures of the Conquistadors as they explored and conquered the New World from 1492. Such adventures lend themselves to board games – and what better way for pupils to consolidate their knowledge and use their creative skills than to create their own game! Teachers were on the look out for creative presentation, a fun game, clear rules, and above all, detailed and accurate history. The standard was very high. Their games were presented and played at our first board games event held after school this week. Pupils and parents competed, whilst younger siblings were gathering ideas and inspiration for when their time comes.

The best board games in each class were commended and highly commended. Special mention goes to the following winners: Sammy Gault, Izzy Sabin, Amelia Smith and Freddie Green.

Miss Jennie Dow
Head of Humanities
