

Foundation

This week the children have been excitedly watching their beans to see the start of roots growing! They have been busy writing a bean diary about the changes. The children have also been thinking about recycling and sorting through rubbish, wondering which recycling bin to place it in. We have also dodged rain showers to have an extra visit to the Wild Place to create our own Andy Goldsworthy inspired art.

This week in Maths, we have been continuing our practice of learning the order of the months and days of the week, as well as telling the time using o'clock and half past. To help with this, the children have listened to the story of Jasper's Beanstalk. To help continue this learning at home, we would like you to play 'Days of the week' snap! Cut out the cards provided and then share them out face down. Take turns to turn over a card and add it to a pile in the middle. Say 'snap' if the two cards are days which are next to each other in the week, like Saturday and Sunday. Whoever says 'snap' first picks up the whole pile and puts them on the bottom of their own. Whoever says it first picks up the pile. Perhaps you can make up your own rules too?

Well done to F54 for their retelling of the Jack and the Beanstalk story. Next week it is the turn of F51, who will be showing their class assembly on Wednesday 24th May, from 08:35 in Ashburton Hall. We look forward to welcoming F51 parents on this morning.

Next week some of the teachers will be welcoming the children who will be starting Foundation in September as they come for their short afternoon visits. Children from F52 will be continuing their normal activities in a different classroom on some afternoons next week to accommodate the visits.

Best wishes,
The Foundation Team
