

Foundation

This week the children have been thinking about fruit. First we thought why fruit was important to eat, what our favourite fruit was and then we have been busy making (and eating!) fruit salad!

In Maths this week we have been estimating; practising making sensible guesses. For example, we have been discussing if you have 9 objects, an estimate of 72 is not sensible! Please practise this skill at home. As part of homework, we would like the children to solve the following problem:

Lee was writing all the counting numbers from 1 to 20.

1	2	3	4	5															
---	---	---	---	---	--	--	--	--	--	--	--	--	--	--	--	--	--	--	--

She stopped for a rest after writing seventeen digits (not numbers!). What was the last number she wrote?

Well done to F51 for their fantastic class assembly on Wednesday. We loved their Enormous Turnip rap! Thank you to those parents who were able to come and watch.

During the half term break, the children will bring home two reading books. You may also like to use this time to revise the correct spelling of tricky words, applying tricky word knowledge into sentence writing and practising digraph recognition.

On Tuesday 6th June the Pre Prep children will be taking part in sports afternoon from 13:45 on School House field. Please can all games kit be washed in preparation for this event and brought to school on Monday 5th June. The children will wear sun hats if the weather is sunny; the children must have their red sunhat in school on Monday 5th.

Have an enjoyable half term,

The Foundation Team
