

## Pre Prep

This week F52 led our assembly with the theme being growing, based on 'The Tiny Seed', by Eric Carle. In preparation, the children had worked extremely hard; they showed us their artwork and models, and how to plant and grow seeds. Well done to F52 for presenting the first of the Foundation class assemblies.

We use the website Busythings in school and have links to areas of it on our VLE. The company has developed considerably since our first subscription with them and has great content to support learning. We have now purchased home access so that the VLE links should work for the children from the VLE. Please make use of this resource.

On Thursday, Years 1 and 2 participated in a 'Walk Through Islam'. They learned about the five pillars of Islam and the importance of the Qu'ran. Visitors to the school supported us for this event and our thanks go to, Mr and Mrs van der Kamp, Mrs Amen, Mrs Daultana, and Ms Shad and Ms Tahir from the Muslim Education Outreach Centre.

We would be grateful for parents' support with the following matters:

- The Wild Place is used during the school day to support outdoor learning, it should not be used as a play space and is therefore out of bounds before and after school.
- Using scooters in the school grounds has become more prevalent of late. Whilst we wholeheartedly support children being active and developing their physical skills, there have been some 'near miss' situations as we are not able to provide a people free scootering area. Therefore, scooters must not be brought onto the site unless they are for journeying to and from school and should be wheeled not ridden on entering the grounds. This rule also applies for bicycles.
- Please ensure that your child has a named, uniform, sunhat, for use in school every day.
