

Engineering – Goblins

Thank you to all the staff and parents who came to support the Goblins on Wednesday 7th June at Scottow Enterprise Park, for the Inaugural Norfolk IET Formula Goblin Event.

The Eco Engineers and the Reusable Rockets both performed brilliantly and their teamwork resulted in 2nd overall in the Drag Race. Miles K and Ben W were narrowly beaten in their semi-final of the sprint race.

The EDP (Eastern Daily Press) attended the event and the attached link [On your marks, Get set, Go! - Norfolk schoolchildren racing at Scottow Enterprise Park in the county's first Formula One-style engineering event](#) takes you to the article, you may recognise a few of the faces.

We look forward to our final race of the year at Goodwood on Sunday 9th July. Hopefully, the wind will be calmer and the sun will be shining.

Mrs Oxborough
