

Pre Prep

The children are using the new climbing equipment at every opportunity during the day and having lots of opportunities for grasping, hanging and swinging. This leads to an increase in core and shoulder strength which is necessary, believe it or not, for the development of handwriting!

In our assembly this week we shared Aesop's story of the 'Bundle of Sticks'. Another focus on working together and listening to the ideas of other people. Our prayer was:

Dear God

Help us to work well with other people.

Help us to cooperate in our classes and families so that we listen well to one another.

Help us to try to be our best selves.

Amen
