

# Junior Mathematics Challenge

The results for the National Junior Mathematics Challenge have just arrived in school, and they make great reading. It is our best ever set of results with the most certificates being awarded and our highest number of gold awards. 67 pupils in Years 6, 7 and 8 have been awarded a certificate, including 16 gold awards, with 8 pupils being invited to take part in the Junior Kangaroo Round and one Year 7 pupil has successfully qualified for the most challenging Junior Maths Olympiad round. These are extra papers that will be sat next month by those that have scored highly across the country. Best in school, and going on to the next Olympiad round, is **Kuankuan Lin** in Year 7, and those qualifying for the Kangaroo paper are **John Hansen, Isabella Woods and Lex Walker in Year 8; Juliette Brooking, Emily Hill, Daniel Myhill and Harry Long** in Year 7, and a special mention to Emily Young who has been invited to take the paper as she is still in Year 6. For those wishing to see if they can match these levels of performance the following link will take you to some past papers for you to have a go <https://www.ukmt.org.uk/individual-competitions/junior-challenge/>

Gold	Silver	Bronze
<b>Kuankuan Lin</b>	Christopher Carew	Flora McCaig
