

# Year 8 Punt Project

A talented group of Year 8 pupils have designed and engineered a 3 man punt which they are raffling with the winner's name being drawn at the SFPA 2018 Summer Party. The group of 7 pupils have spent one hour per week since the beginning of January to build this incredible punt. The punt is almost completed bar the paint job and of course the all-important test to see whether it is sea-worthy, which we have no doubt that it is! You'll be able to sneak a look at the boat from Ashburton Courtyard looking into the Hub and it will be on display outside the dining hall during breakfast after half term in the run up to the Summer Party.

A big thank you to the pupils who have taken part, Jasmine Heslop, Chris Howe, Josh Wheatley, Jemaira Vestey, Zach Mendham, Oliver Matthews and Ben Tanguy Brown. It has been a most enjoyable project. Let's raise some valuable funds for Tom's Trust!
