

Foundation Trip to South Angle Farm

Foundation had a fantastic day at South Angle Farm Park in Soham last Friday.

We enjoyed getting up close to a whole host of different animals, including alpacas, pigs and goats. A highlight for the children was feeding the lambs!

The children were also introduced to a selection of minibeasts and reptiles, including a centipede, corn snake, giant snails and a tarantula called Princess Fuzzyboots! The children also met a bearded dragon and were able to stroke him and some of them were able to feed him mealworm, which they found fascinating.

We also enjoyed cuddles with a rabbit and a friendly guinea pig.
