

# National Junior Mathematics Kangaroo Round

The much anticipated results are now back in school and the pupils that got through to this stage did themselves proud, especially Lex Walker who was in the top 25% of this select group. Commiserations go to both John Hansen and Juliette Brooking, who also would have made the top level but for one mark.

However, well done to all of them, namely John Hansen, Isabella Woods and Lex Walker in Year 8, Juliette Brooking, Emily Hill, Daniel Myhill and Harry Long in Year 7 and Emily Young in Year 6.

We still await the results of the Olympiad paper sat by Kuankuan Lin, more news to follow when the results arrive.

Mr Peter Kite  
Head of Mathematics
