

Foundation

The children returned to school this week full of enthusiasm. We have read the story of 'George Saves the World by Lunchtime' where the hero George is determined to save the world. His Grandpa suggests they start by recycling. We have been busy thinking about how we can contribute to saving the planet by reusing, reducing, recycling and repairing. The children have helped sort rubbish into different materials for recycling, as well as reusing bottles and boxes to make musical instruments.

It was the turn of the Foxes and the Squirrels to visit the Wild Place in glorious warm sunshine! The children enjoyed den making, playing in the mud kitchen and enjoying a hot drink before returning to class.

You may have noticed reading books and/or blending words are now coming home on Monday, Wednesday and Friday. Please read the book and return it and the reading record book to school the following day. If you haven't had time to share the book with your child, please return it anyway and make a note to this effect in the reading record book.

In Maths, we have been finding 1 more or 1 less than a given number to 10. We used number lines and counters to help us. For homework this week, we would like you to help your child fill in the recycling themed pictogram sent home in book bags. Over the next week, each time you recycle an object, help your child record this fact on their pictogram. There are a list of questions to answer on the back of the sheet which you may like to discuss verbally. Please may we have the pictograms returned to school on Friday 8th March?

We would like you to send in a clean glass jam-jar (the large 454g size) with a lid for use later this term. Please send it in by Friday 15th March.

Next week, we will begin to learn about 'real life' superheroes. We are looking forward to visits from a vet and an ambulance.

Best wishes,
The Foundation Team
