

Goblins at Cambridge Science Festival – School Zone 23rd March

Over 400 visitors attended the School Zone last Saturday and St Faith's Goblins were on hand to tell them about all things Goblin at St Faith's. The children were asked a variety of questions such as 'How fast do the cars go', 'Do you really build them yourselves?' – yes we do and the most popular 'Who are the better drivers – girls or boys? – the answer is Goblins.

Thank you to the Goblins who supported the event, they were great ambassadors for St Faith's. They were all keen to share their knowledge and enthusiasm for STEM. Thanks also to their parents who support their children throughout the year.

Mrs Oxborough
