

IAPS Swimming 2019 Results

We have got all the results back from the IAPS National Swimming heats which took place last term. The great news is that 12 pupils have qualified for the National Finals on 8th June at the Aquatics Centre in London, 5 relay teams and 6 individuals. Many of the times set were personal bests, and we had a further 5 pupils who came very close indeed to qualifying individually. There were up to 150 entrants in over half of the events. This is the first time we have had relays teams qualify from three different age groups and twelve is the highest number of qualifiers overall we've ever achieved. Well done everybody.

The results here only show pupils whose position was in the top 50 nationally. The full set of result are available on the [VLE](#).

New School records were set by:

Mateo U11 50m backstroke

Reuben U11 50m breaststroke

U11 boys' medley relay team – Niall, Reuben, Mateo, Jeremy

U11 boys' freestyle relay team – Jeremy, Archie, Mateo, Reuben
