

## D-Day Remembered

Year 5 have been working on role-play in their Drama lessons, and creating tableaux using facial expressions and postures to represent particular people is an important aspect of this topic. On Thursday, 6<sup>th</sup> June, 5L remembered D-Day in a very original way, by recreating scenes from the beaches in Normandy in 1944; after watching archived clips of the D-Day landings and listening to some descriptions of the actual day by veterans, the children chose real photos and set themselves up in selected poses, making sure they focused on facial expressions and postures to bring their freeze-frame to life.
