

UK Team Mathematics Challenge Final

Following on from the success at the Regional Final of this year's UK Team Mathematics Challenge earlier this year, the Year 8 team, consisting of Kuankuan Lin, Daniel Myhill, Juliette Brooking and Amelia Smith, will travel to compete in the National Final in London on Monday 17th June. It will take place at Lindley Hall, which is part of the Royal Horticultural Halls.

The competition combines mathematical, communication and teamwork skills and offers pupils another way to express and develop their enjoyment of Mathematics.

Thousands of entries have been whittled down to just 88 competitors from schools containing teams of Year 9 pupils, so the standard will be very high.

Good luck to Kuankuan, Daniel, Juliette and Amelia.

Mr Mutucumarana
Year 7 Tutor/Teacher of Mathematics & Sport
