

Year 4 Cambridge LaunchPad STARS Awards Picnic

The Stars programme aims to introduce students to Science, Technology, Engineering and Maths (STEM) and increase their enthusiasm and curiosity for these subjects.

All students in Year 4 attended a Project Day hosted by Marshall who invited them to take part in hands-on activities and experience a specific STEM field in a real-world setting.

The programme does not focus on academic ability, but other skills such as teamwork, creativity and communication. The students who best demonstrate these attributes are invited to an awards ceremony and rewarded with an exciting educational experience so as to further their interest in STEM.

On Tuesday 11th June, 7 pupils from Year 4 attended the STARS Awards picnic at the Babraham Research Campus where they were presented with a BBC Microbit in recognition of their success.

Our 2019 Stars are Sophie, Jake, Isla, Eva, AJ, Poppy G and Ieuan

Mrs Oxborough
