

Pre Prep

Our class assembly this week was led by 2RB who presented about the problem of plastic pollution around the world. Their message of Reduce, Reuse, Recycle, was expertly conveyed. We enjoyed their animated presentation and fascinating facts.

The teachers are looking forward to meeting with parents in the week commencing 10th February. Please ensure that you have signed up for a meeting slot. Please also ensure that your child is booked in to Late Stay should you need to use the facility.

We have recently been talking about E-Safety with the children. This message is woven in to the Computing and PSHE curriculum and features in our assembly programme. Children in Years 1 and 2 have been reminded about using the school network and Internet. They will each bring home a form for parents to read through and sign. Please discuss and explain to your child, the rules for using devices in school before returning the signed form their class teacher.
