

## Help Us to Help Others

In our efforts to make a difference during Lent, 6L are taking up the challenge of learning to knit. We are supporting the Warm Baby Project and we plan to knit cannula gloves for premature new-born babies. In our continued drive to reduce, re-use and recycle, we are asking for donations to help start our project.

We are hoping to borrow or receive 18 pairs of 4mm (25cm) knitting needles and any balls of DK (double knit) wool of any colour that you might have lying around at home. Often people have ends of balls of wool which are unused after a knitting project. Please let us make good use of them! There will be a collection box in the School Office for donations of needles and wool.

This is a picture of the knitted squares that we are planning to make. They will measure approximately 10cm x 14cm when finished.

We will keep you up to date with our progress over the coming weeks.
