

Busy Bee

Written and performed by 2JC

The busy bee buzzed from flower to flower
In the sunshine and the shower.

The busy bee took the nectar to and fro
Buzzing around high and low.

The busy bee hid from the varroa mite
At first sight she got a big fright!
The busy bee buzzed back to the hive
To tell the Queen bee she was still alive.

The busy bee checked all the runny honey
And happily rubbed her fuzzy tummy.
The busy bee spread pollen so fruit can grow
But on the way she met a crow.

The Busy bee could become extinct, that's sad
And this makes 2JC feel mad!
The Busy bee's jobs take hours and hours
We think bees have super powers!
