

Chess Success

We start the chess season with some fantastic news. One of our Year 7 pupils (then Year 6), Ryan S, enjoyed considerable success in the West Anglia Megafinal. He qualified for the Gigafinal, of which there are only three in the country. Only two or three of our pupils make it this far each year. He then stunned everyone by becoming only the second St Faith's pupil ever to qualify for the Terafinal, which is the most prestigious event for the top 60 children in the country for his age category. He also scored a highly respectable 4.5 points during this intensive, two day event. Please congratulate Ryan should you see him around school.

The CCC season starts in a month's time and will be played entirely online as we adapt our competition to accommodate the pandemic's restrictions on face-to-face chess. News of the first matches to follow in October.
