

# HOUSE CROSS COUNTRY RESULTS

BASED ON 3<sup>RD</sup> GRAND PRIX RUN

Each score is the result of the added up positions of all runners from the house in that category then divided by the number of runners in that house category on the day. The lower the score the better. In each girl/boy category in each year group the results are ranked. The overall result is the total of all the girls' and boys' average scores totalled for each house. Again, the lowest score is the best.

The most outstanding results with average scores under 10 have been highlighted yellow
