

6B Half Term Travel Challenge

Over half term, Miss Wacey set her form a Travel Challenge to help with their wellbeing and to see how far they could travel in total as a class over the 9 days of the holiday. There were 20 participants in total (19 pupils in 6B and Miss Wacey) and the different ways of travel included walking, running and cycling. Travel was logged on a results sheet (see Jack's below) and totalled up at the end of the week. After collating all the kilometres travelled, the team found they had exceeded their target and managed a total of 748km (465 miles) which would reach London, Cardiff, Paris and Edinburgh.
