

## Pre Prep

We have all been enjoying the fine weather this week and the children are certainly making the most of our outdoor space.

Here are some reminders about weather related matters:

- Pre Prep children need to wear a school uniform sun hat (depicted below) and available online from the uniform shop. This style has been selected as it protects the face and the back of the neck. It should remain in school so that it is available each day.
- Please apply sunscreen prior to sending your child to school. If a further application is required, please send in a named product which we will keep in school.
- School coats continue to be needed in case of rain. Please consult the weather forecast carefully and send your child to school with a coat if there is any chance of rain.
- Likewise children need wellington boots at school and we shall send them home nearer the end of this term.

We have spare clothing at school for children to change into when needed. We would be grateful to receive donations of shorts or tracksuit bottoms if you have unwanted items to pass on. Please return any borrowed items once laundered.
