

Year 8 Outreach

On Tuesday after school, a group of our Year 8 pupils visited Trumpington Meadows School to run a Virtual Reality stand at their Science Fair. The event was a roaring success, with the St Faith's stand being easily the most popular, with queues of excited children stretching across the hall!

Our volunteers – Heidi B, Max B, Milo Q, Chloe R and Lucy W – were fantastic ambassadors for St Faith's: interacting amicably with both children and adults, managing the busy queues, offering expert guidance in use of the VR headsets, and helping everyone get strapped in for their trip to space, rollercoaster ride, or visit to the International Space Station! The adults there – Mr Hyde, Miss Kennerley and Mr Mitchell – were impressed with the maturity, helpfulness and social skills shown by our volunteers, who generously gave up their evening for this worthwhile outreach exercise.
