

Power House Games Event Report

On Monday, we took part in the Power House Games event. It was a great experience and very well attended. We played a variety of sports to include Croquet, Kwik Cricket, Goalball and Curling. We especially enjoyed Goalball, as it gave us an interesting perspective as to what sport would be like if you were blind. It was a joy to meet students from Castle School, who were very kind, had lots of interests they were happy to chat with us about and they all had great smiles. We also met a lot of people who were there to support the idea that no one should be left on the bench. Playing the modified sports, which enabled children with different physical and learning needs to participate together in teams, reminded us of how fortunate we are.
