

I would like to take a moment to share some of the wonderful experiences I have had at St Faith's, which I believe reflect why this school is such a special place for learning and growth.

First, I want to highlight the incredible sense of community here. From the moment I stepped through the doors, I felt welcomed by both the staff and my fellow students. The friendships I have formed have made my time here hugely enjoyable, and the support we give each other fosters a positive environment for everyone.

I have gained many amazing skills at my time here at St Faith's from walking through those giant gates on my first day of school to going on the Salamanca trip only months ago. I still remember my first day in Year 3. The blazer felt strange and was about three sizes too big from endless hand me downs. I would have been nervous if it weren't for my brother who was in Year 6 who walked me the whole way down to my class where I had one of the nicest teachers ever.

One of my favourite experiences has been taking part in the swimming competitions in the London Olympic swimming pool. Competing in this event not only challenged me to improve my skills, but it also allowed me to represent our school with pride.

When I arrived here, I was already an amateur musician but being at this school has allowed me to bloom into the musician I am today. I have already achieved grade 5 cello, grade 3 piano and grade 8 in my singing.

Another aspect I have truly enjoyed is the hands-on science experiments. The curriculum encourages us to explore, ask questions, and engage with the material in a way that makes learning come alive.

In addition to academics, the extracurricular activities at St. Faith's offer wonderful opportunities for personal growth. Whether it is joining a club, participating in sports, or taking part in performances, there is something for everyone. These activities help us develop our interests and discover new talents.

In conclusion, my time at St Faith's has been filled with incredible experiences, supportive friendships, and a passion for learning. I wholeheartedly believe this school nurtures not just our minds, but also our character. I encourage you to consider St Faith's as a place where your children can thrive, just as I have.

Gaspar – Year 8
