

My name is Lucy, and I am a Year 8 pupil and prefect here at St Faith's.

I feel that St Faith's has shaped me into a vibrant, diverse, and confident person over the eight years I have been here. It truly has turned me into my best self. I have been at this encouraging school since year one. St Faith's is an amazingly welcoming school. I can remember my first day, with my new sparkly shoes and my smart pre-prep uniform. I was welcomed by my new teacher, who was so truly kind and caring. A fond memory I have of her, Mrs Clark, was when she dressed up as gangster granny on world book day. Her grey wig and inflatable walking stick will certainly stay in my memory forever!

The adventures I have had at St Faith's from museums, camping trips, theatre productions and music tours, have all been incredible experiences for me. I went on a music tour to Liverpool with the chamber choir, where we sang in Liverpool Cathedral and visited the Beatle's museum, and I am really excited that we get to tour again this year. That is only one of my unbelievable trips here at St Faith's.

I have been part of the Green Goblins race team, where I got to use my engineering and creative skills to build go carts. As team captain, I was so proud when our car, which we affectionately called JIGGLY JELLY FISH, won best body work at a competition at Goodwood.

St Faith's has given me the confidence to put myself forwards for the school council and I was successful in my campaign to be a year group representative for both Year 7 and again in Year 8. I have made friends for life during my wonderful journey here at St Faith's, this, and so many other reasons are why St Faith's is an exceptional school.

School life here revolves around our learning habits. Our reward system encourages people to aim high in our learning habits. These are seven qualities which help us to become are best selves. It is not necessarily about how many prizes you earn but about aiming to be your best self. This school has fully harnessed my potential not preparing me for the past, but the future.

Thank you.
